

Report on Career Guidance, Training, Placement AY – 2021 -22

Career Guidance

Students of 6th and 8th Semester were trained for Industry Placement. The Institute regularly organizes Guest lectures webinars, Industrial Visits etc. This helps the students to understand the potential outcomes and occupation responsibilities at Industry, their focus on various departments of Pharmaceutical Industry such as Formulation Development, Quality Assurance and Marketing and Sales. Similarly, efforts are taken to conduct pre- GPAT programs every year which help obtain better results in Students and help them in their Post Graduation.

Training and Placement

Shree Naranjibhai Lalbhai Patel College of Pharmacy, Umrah, works with the demonstration of position of undergraduates collaborating with other Educational Institutes and Industries.

The students are also trained in instrumentation through arrangement of various programs conducted by the institute like Orientation to Instruments in College and Short-term HPLC Course etc.

We have successfully placed more than 60% students in last three years in industry or academics or higher studies.

Also, the placement activities are governed at University levels through Placement fairs and College level as On/Off campus interview.
